

# GDI+ 1.0

by Stephen Rodriguez

[RectF Class](#)

### General.

Our GDI+ RectF class is housed within the "gdiPlus\_RectFClass.pbi" source file.

The class contains elements of the following c/c++ classes :

#### **RectF**

This is a *helper-class* containing just a single macro :

***gdiPlus\_RectF(name, wX, wY, wWidth, wHeight)***

This macro simply fills out the fields of a RectF structure whose fields can be seen in the "gdiPlus\_Header.pbi" file.
